

WHAT ELSE YOU SHOULD KNOW

- A link to another account or line of credit may be less expensive than an overdraft. A single larger overdraft will result in one fee, instead of multiple smaller overdrafts. Use our Trademark Mobile, Trademark Online, and telephone banking services to track your balance. For financial education resources, please visit www.mymoney.gov.
- The \$27 Trademark Defender Fee that is charged if you overdraw your account is lower than the fee that is charged if an item is returned as unpaid. If multiple items overdraw your account on the same day, each item will be assessed an appropriate Trademark Defender Fee or an Insufficient Funds Fee of \$29. All fees and charges will be included as part of the Trademark Defender limit amount. Your account may become overdrawn more than the Trademark Defender limit amount because of a fee.
- Recipients of federal or state benefits payments who do not wish us to deduct the amount overdrawn and the Trademark Defender Fee from funds that you deposit or that are deposited into your account may call us at (800) 696-1146.
- If an item is returned because the available balance (as defined below) in your account is not sufficient to cover the item and the item is presented for payment again, Trademark Federal Credit Union ("We") will charge an Insufficient Funds Fee each time it returns the item because it exceeds the available balance in your account. Because we may charge an Insufficient Funds Fee each time an item is presented, **we may charge you more than one fee for any given item as a result of a returned item and representation of the item.** When we charge a Insufficient Funds Fee, the charge reduces the Available Balance in your account and may put your account into (or further into) overdraft. If, on representation of the item, the Available Balance in your account is sufficient to cover the item we may pay the item, and, if payment causes an overdraft, charge a Trademark Defender Fee.
- There is no limit on the total Trademark Defender Fees per day we will charge.
- Our general policy is to post items throughout the day and to post ACH credits before debits. ATM, ACH, debit card transactions and checks are posted in the order in which the items are received; however, because of the many ways we allow you to access your account, the posting order of individual items may differ from these general policies. Holds on funds (described herein) and the order in which transactions are posted may impact the total amount of Trademark Defender Fees or Insufficient Funds Fees assessed.
- Although under payment system rules, we may be obligated to pay some unauthorized debit card transactions, Trademark Federal Credit Union will not authorize debit card or ATM transactions unless your account's available balance (including Overdraft Coverage Options) is sufficient to cover the transactions and any fee(s).
- Giving us your consent to pay everyday debit card and ATM overdrafts on your consumer account (Extended Coverage) may result in you incurring Trademark Defender Fees for transactions that we would otherwise be required to pay without assessing a Trademark Defender Fee. However, this would allow us to authorize transactions up to the amount of your Trademark Defender limit and may also help you avoid overdrafts in excess of your available balance. If you consent to Extended Coverage on your consumer account, it will remain on your account until it is otherwise withdrawn.

Understanding your Available Balance: Your account has two kinds of balances: the Ledger Balance and the Available Balance.

- We authorize and pay transactions using the Available Balance.
- Your Ledger Balance reflects the full amount of all deposits to your account as well as payment transactions that have been posted to your account. It does not reflect checks you have written and are still outstanding or transactions that have been authorized but are still pending.
- Your Available Balance is the amount available to you to use for purchases, withdrawals, or to cover transactions. The Available Balance is your Ledger Balance, less any holds due to pending debit card transactions and holds on deposited funds.
- The balance used for authorizing checks, ACH items, and recurring debit card transactions is your Available Balance plus the amount of the Trademark Defender limit and any available Overdraft Protection.
- The balance used for authorizing ATM and everyday debit card transactions on accounts with Standard Coverage is your Available Balance plus any available Overdraft Protection but does NOT include the Trademark Defender limit.
- The balance used for authorizing ATM and everyday debit card transactions on accounts with Extended Coverage is your Available Balance plus any available Overdraft Protection and includes the Trademark Defender limit.
- Because your Available Balance reflects pending transactions and debit holds, your balance may appear to cover a transaction but later upon settlement it may not be sufficient to cover such transaction. In such cases, the transaction may further overdraw your account and be subject to additional overdraft fees. You should assume that any item which would overdraw your account based on your Available Balance may create an overdraft. Note that we may place a hold on deposited funds in accordance with our Membership Agreement and Disclosure, which will reduce the amount in your Available Balance.
- Please be aware that the Trademark Defender amount is not included in your available balance provided through Trademark Online, Trademark Mobile or Trademark Federal Credit Union's ATMs and ITMs.
- We will place a hold on your account for any authorized debit card transaction until the transaction settles (usually within two business days) or as permitted by payment system rules. In some cases, the hold may exceed the amount of the transaction. When the hold ends, the funds will be added to the available balance in your account. If your account is overdrawn after the held funds are added to the available balance and the transaction is posted to the available balance, a Trademark Defender Fee may be assessed.
- Except as described herein, we will not pay items if the available balance in your account (including the Trademark Defender limit, if applicable) is not sufficient to cover the item(s) and the amount of any fee(s).
- New checking accounts will receive a \$100 Introductory Trademark Defender limit at account opening that will be increased to \$250, \$500 or \$1,000 (limits are granted based on your account and deposit activity) after 30 days in good standing.
- Trademark Defender is not a line of credit; it is a discretionary overdraft service that can be withdrawn at any time without prior notice.
- Trademark Defender may be revoked if you default on any loan or other obligation to us, your account becomes subject to any legal or administrative order or levy, or if you fail to maintain your account in good standing by not bringing your account to a positive balance within 32 days for a minimum of one business day. You must bring your account balance positive for at least one business day to have the Trademark Defender limit reinstated.
- Depositor and each Authorized Signatory will continue to be liable, jointly, and severally, for all overdraft and fee amounts, as described in the Membership Agreement and Disclosure. The total (negative) balance, including all fees and charges, is due and payable upon demand.

If you have any questions about Overdraft Protection or Trademark Defender, please call us at (800) 696-1146 or visit a branch.
